CAREER OBJECTIVE

With hands-on experience in the MERN stack—specifically ReactJS, ExpressJS, NodeJS, and MongoDB—I am enthusiastic about leveraging my technical skills to make significant contributions to dynamic tech projects. I am keen to apply my expertise in both front-end and back-end development to drive impactful results and continuously excel in creating robust, scalable applications.

TECHNICAL SKILLS

Frontend HTML, CSS, JavaScript, React, Next Js, Tailwind, React Query, Firebase

Backend Node.js, Express, MongoDB, JWT, Rest API

TOOLS VS Code, Git, GitHub, Netlify, Vercel, Canva, Figma

PROJECTS

eTuitionBd | Tuition Management Platform

[Live Link](#) | [Client Repo](#) | [Server Repo](#)

- Implemented role-based authentication and authorization for Students, Tutors, and Admins using Firebase Authentication.
- Developed a complete tuition management system with tuition posting, tutor applications, hiring workflow, and secure payment integration.
- Built responsive dashboards with analytics, search, filtering, pagination, and optimized data fetching using TanStack Query.

Technologies: React.js, MongoDB, Node.js, Express.js, Firebase, Stripe, TanStack Query, Tailwind CSS.

Tour Booking | Tour Package Booking Website

[Live Link](#) | [Client Repo](#) | [Server Repo](#)

- Authorized server routes using JWT tokens for secure user authentication.
- Implemented role-based access control to prevent users from modifying or deleting others' bookings or packages.
- Used TanStack Query mutations for fast, stable, and optimized data updates across the entire app.

Technologies: React.js, MongoDB, Node.js, Express.js, JWT, TanStack Query, Tailwind.

Import Export Hub | Export/Import Management

[Live Link](#) | [Client Repo](#) | [Server Repo](#)

- Authorized server routes using JWT tokens for secure user authentication.
- Implemented role-based access control to prevent users from modifying or deleting others' exports or imports
- Used TanStack Query mutations for fast, stable, and optimized data updates across the entire app.

Technologies: React.js, MongoDB, Node.js, Express.js, Tailwind.

EDUCATION

HSC — Rohanpur Yousuf Ali College

Session: 2021-2022

B.A. (Honours) — Currently Studying

LANGUAGE PROFICIENCY

English (Intermediate), Bengali (Native - Fluent), Hindi (Communicative)
